

Proceedings EXCON'04

The proceedings of EXCON'04 will be published as a separate volume in Journal of Luminescence. Please note that only one manuscript will be accepted for each participant who is present at the conference. The manuscript should be submitted in PDF-format by e-mail to excon@physik.tu-chemnitz.de. Deadline for submission of the manuscripts is Wednesday, 30th June 2004. Please note that you have to submit your manuscript 2 weeks earlier, namely until 15th June 2004, if you want to be eligible for the EXCON prize, see below.

Instructions to Authors

All manuscripts should be written in proper English in the style of J. Luminescence. The length of the article should not exceed 6 and 4 printed journal pages for invited lectures and contributed papers, respectively. As a rule of thumb, the mean reduction factor from the number of manuscript pages (including also equations and figures) to the number of printed journal pages is 0.6. A more detailed estimate of the length of your paper should be done according to the table below.

Please submit only a PDF-version by e-mail until the deadline. In addition, please bring 3 printed copies and an electronic version on a disk or CD with you to the conference. These copies should be submitted at the conference office on 6th July. The refereeing procedure will be started during the conference. If only small corrections are requested, these can hopefully be performed already during the conference. In any case the final version of the manuscript (after a possible revision) should be accompanied by an electronic version on a floppy-disk or on a CD-ROM. For the text and equations, please use Word or (L)A^TE_X.

For figures TIFF, EPS, GIF, PDF is fine. Please make sure that all labels are still legible when the figure is reduced to the appropriate width for the journal, i.e. 7.5 cm for a single column. Also please check that dotted and broken lines can be clearly distinguished. Please avoid originally coloured lines which are printed in grey and may be difficult to distinguish.

The first page of the manuscript should contain in this order: Article Title, Author(s), Affiliation(s), Abstract, PACS Codes, Keywords (up to 6), Name, Complete Postal Address, Telephone and Fax numbers as well as the Email Address of the corresponding author.

The following pages contain the Main Text, Acknowledgements, Appendices, References, Figure Captions, Tables and Figures.

References should be given in the style of J. Luminescence:

for journals:

R.U. Sure, U.R. Wrong, J. Non-Reprod. Res. 9 (2002) 5.

O. Dear, I. Giveup, Err. Comp. Exp. 1 (2003) 456.

for monographs:

E.C. Writer, I.M. Bright, Sudden Inspirations, Brainwaves Publishing, Cracow, 2004

for articles in a book:

T.B. Ornot, T.B. Rejected, How to write a good article, in: A. Refer, E.-N.A. Ditor (Eds.), Publish or Perish, Elsevier, Amsterdam, 2007, p.0815.

Additional information on the publication in J. Luminescence can be found on the web pages

<http://authors.elsevier.com/>

<http://authors.elsevier.com/GuideForAuthors.html?PubID=505700&dc=GFA>

But please note that the manuscripts should not be submitted to the editor (Prof. Meltzer) given on those web pages.

In case of any questions, please ask:

Prof. Dr. Michael Schreiber, Institut für Physik, Technische Universität Chemnitz

09107 Chemnitz, Germany

Email: excon@physik.tu-chemnitz.de

How to estimate the length of a paper

Calculate 800 words per printed page, therefore you should not exceed 4800 words for invited lectures and 3200 for contributed papers.

Allow for	words equivalent	your number	of	your effective word count
Title, authors, affiliation, first-page overhead	400	once	paper	400
Each additional affiliation	48		add.aff.	
Abstract	1		words	
Main text	1		words	
Single column figures, 5 cm height	120		figs.	
Double column figures, 5 cm height	240		figs.	
Figure captions	1		words	
Simple equations	24		eqs.	
Single column tables per line	10		lines	
Double column tables per line	20		lines	
Table captions	1		words	
References	16		refs.	
Total				

Multiply the value in column “words equivalent” with your number count and fill the result into the last column. Make sure that the total sum does not exceed 3200 (4800) words. Please submit this table with the three copies of your manuscript on the first day of the conference.

EXCON'04 Prize

As announced in the 2nd Circular, Elsevier Publishers have newly established an EXCON prize which will be awarded in two categories, for the best poster presentation and for the best paper. In order to be eligible for the prize, an EXCON participant must not be older than 40 years on 31st December 2004, and must not hold permanent professorship. He/she must be the first author of the submitted paper or poster.

The corresponding manuscript must reach the organizers of the conference (PDF-file to excon@physik.tu-chemnitz.de) not later than on 15th June 2004, and should be accompanied by a statement that you want to apply for the EXCON prize and why you think that your contribution deserves to be considered for the prize. Please also supply your birth date and indicate your professional position.

Based on the manuscripts, several papers will be shortlisted as candidates for the prize. If some of them have been previously selected for poster presentation, they may be upgraded to the oral status, to be presented at a special Prize Session. So, if you are preparing a poster and are applying for the prize, you have to be prepared also for an oral presentation. You will be informed until 28th June if your paper is selected for presentation at the Prize Session.
