

Referee-report on manuscript(Code) “”(beginning of title)
by (first author)

Dear referee,

Please fill out this form and return it – if possible – before the end of the conference. If this is not possible, please fax it to +49 371 5313143. You can also scan it and email it to excon@physik.tu-chemnitz.de. The form is also available on the conference webpage. In contrast to many other conferences, we would like you to do a serious assessment. Do not hesitate to reject manuscripts, which are not of sufficient quality for a regular issue of the Journal of Luminescence. If you want to mark the manuscript for the benefit of the author(s), feel free to do so, but tick the box at the end of this report. Only in this case, return the manuscript. Otherwise, please discard it.

- | 1. Please summarize your assessment of the paper: | YES | MAYBE | NO |
|---|--------------------------|--------------------------|--------------------------|
| Does the paper contain enough new physics to warrant publication? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Is the paper scientifically sound and not misleading? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Is the paper well organized and clearly written? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Are the subject matter and style of presentation appropriate for J. Lumin.? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

2. Please evaluate quality of Research and Presentation:

- Excellent
- Good
- Average
- Marginal
- Poor

3. Recommendation -

- Publish without change (please give reasons in report).
- Publish after authors have considered the optional revisions mentioned in the report.
- Publish after authors have made the revisions mentioned in the report. (I do not need to see the manuscript again.)
- Revisions are necessary. Return to me on resubmittal.
- Do not publish; see report.
- Other; see report.

Report:

There are marks in the manuscript. The manuscript should be returned to the author(s).

This part will not be copied for the author(s)
